Each team is to research a constellation of their choice. They are to then work together to produce an original brochure of the constellation which should include the following information with the appropriate documentation:

- Pictures
- Sketches
- Location in sky
- Mythological stories
- Star names
- Distances to stars
- Deep Sky objects with descriptions of location, formation, and pictures
- Messiahs objects
- And more

Finished project should be 1 or 2 pages and have the look/quality of an actual brochure which could be handed out at a planetarium or night viewing
